SIMPLY  
MARVELOUS  
VOL-2.3

SIMPLY MARVELOUS

## Who we are

Acufa core values can be tracked back to its origin as a Indian brand, We are committed to offering high quality products that are artistically designed, yet engineered with cutting-edge proprietary materials and technologies. When it comes to taste and quality today's customer are more discerning than ever. This is why we make exciting products. Products which are thought provoking and raise the bar of excellence in design. The perfect blend of fine art and flawless engineering this is our competitive advantage. As a design-driven brand we will constantly innovate to create products with new technologies and designs worthy of the Acufa name.

## Faucet Features

### LONG LIFE

Cartridges and spindles tested for over 5 lakh cycles, assuring long life of faucets.

### ANTI RUST MATERIALS

Faucets Body are made of the purest Brass. So it resist to soft water corrosion and Hard-water calcification.

### UNI FLOW

Faucets with aerated flow technology for delivering uniform flow of water that feels smooth and soft

### SOFT MOVE

Special cartridges to ensure smooth movement of single lever faucets.

### LONG LAST SHINING

Faucet plated with 3 layers of nickel metal and chrome metal (2:1) that gives long lasting shine.

### ECO FLOW

Eco-friendly faucets with water saving aerator.

### CUSTOMER CARE

Fast Telephone Response. Available & Replace all Parts  
Good Customer Relation, Quick Delivery

## CONSUMER GUIDLINE

ACURA believe in customer first. We believe in customer satisfaction. for ACURA, Its responsibility does not end by manufacturing quality products. A team technicians across India provide prompt after-sales service to its customers ACURA also provides unique support to its customers during the designing phase. Some of the general instauration carefully followed by the customers to get optimum result of the product.

### GENERAL INSTRUCTION

- Use 25mm pipes rather than 20mm pipes to ensure better water flow and to overcome reduction in diameter of pipeline due to scaling inside the pipeline. For better performance of the product, we recommended water pressure should be between 2.5 bar to 3 bar.
- Keep the minimum number of bends in the pipeline and make it travel straight and vertical as far as possible.
- All the supply must have vent pipes. These vent pipes help in removing air locking in the water supply to give a flow of water from the fittings.
- Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the line.
- Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings.
- Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. this prevents the flow of the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular interval to avoid deposition of foreign particles.
- Do not use strong harsh cleaning agents containing abrasive, acids detergents as this may cause damage to the chromium finish.
- To protect the finish from fittings from dirt stains and other damages, cover them with cloth/polypack after their installation till they come into actual use.
- It is suggested that center to center distance for hot and cold inter for all type of wall mounted mixers should be maintained at 165mm in which case any of our wall mixers from different ranges can be easily installed without any problem.
- Insist on genuine spares from the company's local service center or its authorised stockist in case of repair or replacement.
- For any type of technical or service assistance, please contact the nearest ACURA branch, dealer, or area representative.

FAUCET WARRANTY CHART		
Product Category	Residential Use Warranty Period	Commercial Use Warranty Period
CP Fittings (Faucet, Diverters, Concealed Bodies, Wall Mixer, Basin Mixer)	7 Years	3 Years
Overhead Shower, Rain Shower, Hand Shower, Health Faucet, Flush Tanks	6 Months	3 Months
Project Angle Valves, Accessories	1 Year	6 Months
Consumable Parts like Aerators, O-Rings	NIL	NIL

**The warranty will be avoided and not valid or service charge is applicable in below conditions.**

If the Products are not installed according to the instruction manual, the Product is found tempered/misused, any warranty norms are violated, Customer is unable to produce copy of invoice at the time of service visit, the breakdown is not arising out of manufacturing defect, but due to external reason such as: water impurities, masonry, electrical, plumbing error, water hardness beyond permissible limits, inadequate or excessive water pressure, non-usage of product for more than 6 months, usage of abrasive cleaners, ammonia, bleach, acid, wax, alcohol, solvent or any other non-recommended items on product, or improper care and cleaning of the product.
